

UltraMAX™ Granite

GRAN-FM-UPS (AS SHOWN)

External Mix for Precision & Reliability
Low Pressure for Improved Performance
Best Spray Pattern with GEX-3000 Gun

UltraMAX™ Granite System

GRAN-PC-UPS (AS SHOWN)

The **M.V.P. UltraMAX™ Granite System** is the new industry leader in reliable granite production. Featuring the GEX-3000 granite gun, the only external mix granite gun on the market, the UltraMAX™ Granite System was developed in response to industry demand for an external mix solution that eliminates the mixing of granite and catalyst through the gun's mix housing. The GEX-3000 features a stainless steel head, large porting and an all-new valve design that virtually eliminates sticky needles and packing issues.

Now you can achieve a high quality spray pattern suitable for a variety of outputs, including high volume. The GEX-3000 gun is adaptable too; able to accommodate a variety of tips to suit the granite mixture you prefer. The M.V.P. UltraMAX™ Granite System has a high degree of success using the industry's popular materials.

Material & Time Savings

The Granite System eliminates the need for hand mixing in a cup gun, resulting in significant savings of both time and materials.

Low Pressure

Low pressure means less material clogging in the system. Utilizing the UltraMAX™ pumping system guarantees the lowest pressures available. Call today for more info!

System Specifications:

Output: approx. 2 to 6 lbs. (0.9 to 2.7 kg) per min.
Air Consumption: 12 CFM (340 L)
Operating Pressure: 35-45 psi*
Hose Length: 30 ft. (0.5" Resin Hose)

Average Crated Dimensions (Portable Model)

Length: 48 in. (122 cm)
Width: 48 in. (122 cm)
Height: 52 in. (132 cm)
Weight: 190 lbs. (86 kg)

* (2.5" Powerhead, 6:1 Power Ratio)

GEX-3000

Featuring:

The GEX-3000 Gun - The ONLY external mix gun on the market

- **Lowest pressure available**
- **The most accurate & reliable metering system made for granite production**
- **External mix - you can see the catalyst**
 - **Excellent spray pattern**
 - **Saves time and material**
- **Easily adaptable to preferred granite mixtures**
