Tape Wetout System

TMA-1000 PORTABLE FIBER WETOUT SYSTEM

Are you currently manually wetting out tape in your production? Have you been waiting for someone to design a system to make this process more accurate and efficient? The wait is now over! Magnum Venus Plastech is pleased to introduce the new Portable Tape Wetout System.

This portable system is driven by the proven technology of the Pro Series pumping system. The reliable, time-tested 2-inch stroke of the famous V-Pro pumping system, featuring an integrated power head & fluid section, has proven itself in production facilities around the world for decades. All Pro units feature the new V-Pro 2000 high-speed reversing valve, which delivers smooth changeover at the transition of the stroke...every time.

This new system features:

- Resin output of 0.75 gpm (2.84 lpm)
- Adjustable tensioner for complete wetting
- Fill activated by foot pedal
- Modular design
- Easy to remove cleanable bath
- Thorough mixing with Automatic Pro Gun

Technical Specifications

Resin Output:.....0.75 gpm (2.84 lpm)

Maximum Tape Width:.....13.5" (34.29 cm)

Cone Diameter:3" (7.62 cm)

Shipping Dimensions:

Length:.....65" (165.1 cm)

Width:41" (104.1 cm)

Height:58" (147.3 cm)

Weight 651 lbs. (295.3 kg)

The Automatic Pro Gun features a pneumatic trigger, removable mix chamber, and simple maintenance design.

Modular construction enhances the Pro Gun's versatility, and simplifies disassembly for cleaning and maintenance. The removable mix housing allows rebuilding a "set-up" gun in minutes.

The Portable Tape Wetout System is the ideal tool for your operation.
