# Gelcoat Heater

CFH-2110-AI LOW-TO-MEDIUM RANGE OUTPUT

Heaters have become almost essential in any composites manufacturing operation, and M.V.P. has stepped up to bring this simple technology to a more efficient level. The M.V.P. CFH-2110-AI & CFH-2220-AI Heaters feature: lower flow rates, better control over temperature changes and an easy-maintenance design.

If you require a heater that will adjust to your operation, rather than having your operation adjust to your heater, then you need to check out the CFH-2110-AI & CFH-2220-AI Heaters.
