

▶ UNIVERSAL PROPORTIONER SYSTEM

The Universal Proportioner System supports a wide application range for Epoxy and Urethane laminating resins and coatings for a variety of industries.

DESCRIPTION:

▶ SYSTEM FEATURES

The Universal Proportioner System is the latest mix/meter dispense system from Magnum Venus Products, which draws on technology that has been successfully used in MVP systems for over 50 years while incorporating many exciting new innovations.

This system covers a wide application range for Epoxy and Urethane laminating resin and coatings. The air motor drives a heavy duty rocker arm linkage drive which drives two double acting reciprocating piston pumps. The resin side is fixed and the hardener side is adjustable, using an upper and lower screw/clamp block to set the ratio range.

▶ SPECIFICATIONS

Fluid sections:

UPLS-1000: 23.51 C.I./Cycle hardened seats or stainless steel
 UPLS-4600: 9.67 C.I. /Cycle hardened seats or stainless steel
 UPLS-2300: 4.82 C.I./Cycle stainless steel only
 UPLS-2400: 4.95 C.I./Cycle hardened cylinder only

Ratio:

With two of the same fluid section listed above:

1:1 to 3.1:1 by volume
 UPLS-1000 & UPLS-4600: 2.43:1 to 7.5:1
 UPLS-1000 & UPLS-2300: 4.8:1 to 15:1
 UPLS-4600 & UPLS-2300: 2:1 to 6:1

Powerhead:

At 100 psi supply air, run at 60 psi, 40 cycle/min.
 (10" - 45 to 50 SCFM) (7" - 20 to 25 SCFM)
 (5" - 10 to 15 SCFM)

▶ OPTIONS

- Pneumatic shot size control
- Heaters and heated hoses
- Auto Level Control
- Flow meters
- Gravity feed containers
- Pressure feed pumps
- Innovator Plus PLC Control Box
